

ANNUAL REPORT | 2021

Dennis Buchanan, M.D.
Chair, Foundation Board of Directors

Dub Drees
Chief Philanthropy Officer

TO OUR LOYAL SUPPORTERS

As we reflect on the past year, we are filled with both honor and gratitude for your generosity, which led to extraordinary accomplishments in 2021. Together, we were able to acquire the latest advancements in technology, enhance life-changing patient and community programs and most importantly support the heroic caregivers who continue to keep our families safe during these challenging times.

“Thank you” is simply not enough to express our gratitude. You have entrusted Providence St. Jude Medical Center in your family’s care for over 65 years and that bond only continues to strengthen. Your commitment to provide hope and healing for thousands of patients demonstrates how you have embraced Providence’s vision of health for a better world.

As you read through our latest achievements, we hope you feel a sense of pride in what you made possible. Our ability to keep pace with developing health care trends is because of your compassion for others. We are eternally grateful to have you within our Providence St. Jude family.

Thank you again for your continuous partnership. We look forward to another exciting year of great achievements.

Sincerely,

Dennis Buchanan, M.D.
Chair, Foundation Board of Directors

INVESTING IN OUR FUTURE

We thank our donors who are investing in Providence St. Jude so we can continue providing quality health care to our community, now and in the future. Their forward-thinking support ensures our promise to *know me, care for me, ease my way* can remain unbroken.

Charles and Dorothy Lippman Salovesh,
members of the Sister Jane Frances Legacy Society
who established an endowment for palliative care

Endowed Funds

Last July, a generous donor allowed Providence St. Jude to establish the first endowed chair for the Providence Southern California region. This will advance innovative research and the work of chair holders for generations. Additionally, the Lippman Salovesh Family Endowed Fund for Palliative Care and the Duncan and Carolyn Johnson Family Endowment were both fully funded last year and will benefit life-changing programs for our patients and caregivers, into the future.

Planned Giving

Charitable giving through estate planning can increase your retirement income, lessen your tax burden or even bypass capital gains taxes. It’s also a way to establish a legacy and impact health care in our community. In 2021, donors committed more than \$3,700,000 in planned gifts, adding 13 members to the Sister Jane Frances Legacy Society.

Named Restricted Funds

Through named restricted funds, donors designate donations for a specific purpose. Last year, Providence St. Jude established seven new funds to support services throughout the medical center. We recognize their generosity by naming these funds in their honor:

- Wo Kong Kwok, Ph.D., and Mrs. Olga Denton-Kwok Neurosciences Innovation and Implementation Fund
- Carlos and Haydee Mollura Cardiac Innovation Fund
- Paul and Mary Reitler Excellence in Cardiac Services Fund
- Thad and Ann Sanford Neurosciences Innovation Fund
- Selwood Cardiac Innovation Fund
- Charles and Arlene Steichen Digestive Health Innovation Fund
- Jin-Jie and Hu-Ping Yu Cancer Technology and Innovation Fund

YOUR IMPACT

Through your generosity, **\$8,468,002** was raised in 2021 to enhance patient care at Providence St. Jude Medical Center. We are grateful for your gifts that allow us to continue to provide compassionate, quality care to our community.

— Laura Ramos, Chief Executive,
Providence St. Jude Medical Center

Providence St. Jude Medical Center

INNOVATIVE TECHNOLOGIES

Thanks to our generous donors, new and innovative technologies were installed across the medical center in digestive health, cardiac care, imaging, cancer, rehabilitation and more. Access to cutting-edge resources found only at a handful of hospitals in our state enable our physicians and caregivers to provide leading-edge care. These medical innovations ensure fewer complications, better patient outcomes and the ability to perform minimally invasive procedures previously not possible at Providence St. Jude.

Some of the new technologies installed include:

- EPIQ Ultrasound system for cardiac care, providing superior visualization into the heart and making new minimally invasive procedures possible.
- ZeroG® system for rehabilitation, a robotic device that allows patients to wear a harness connected to an overhead track, providing fall prevention and recovery strategies in a controlled environment. Our Centers for Rehabilitation and Wellness is the only comprehensive facility in Orange County to offer this advanced technology.
- EndoFLIP™ for digestive health, a minimally invasive endoscopic tool optimizing patient outcomes through intraoperative measurements.
- ION Endoluminal System for the Crosson Cancer Institute, a robotic-assisted platform for lung biopsies that ensures fewer complications and reduces the need for repeat procedures.

“ We are so grateful to our generous donors for putting these technologies into our hands, and for helping elevate our programs to be among the top ranked in the nation. ”

— Suzy Kim M.D., Medical Director, Outpatient Physical Medicine & Rehabilitation

Providence St. Jude caregivers overwhelmed with gratitude for their care packages

SUPPORTING OUR CAREGIVERS

Providence St. Jude joins our many patients and families who express their gratitude for our dedicated caregivers. Each kind word and gesture caregivers receive means so much to them. With the help of our donors, we continue supporting them by funding opportunities for education and professional development in addition to providing appreciation and comfort items.

Thanks to philanthropic support, we awarded 22 nurses the opportunity to further their nursing education through the Joy Jones and Sister Jane Frances Scholarships. We also funded the opportunity for several nurses to attend professional conferences for the national Magnet® Recognition Program, Association for Nursing Professional Development and more. To support the well-being of each caregiver, we provided them with wellness kits and jackets, to encourage and thank them for their dedication to our community.

CARING FOR THE COMMUNITY

At Providence St. Jude, we are more than a medical center. We are a community dedicated to ensuring each person has access to comprehensive, compassionate care by raising funds to support our most vulnerable neighbors.

Thanks to our loyal supporters, we raised over \$229,000 at the 2021 Neighbors Helping Neighbors – Concert on the Hill event for Unity House. This recuperative care facility serves women experiencing homelessness who have been hospitalized, and those at risk of being displaced.

In December 2021, we joined the City of Anaheim to celebrate the grand opening of the Providence St. Jude Neighborhood Health Center in Ponderosa Park. This clinic will make essential health care more accessible to some of the most underserved in our community. Services include pediatrics, obstetrics-gynecology, prenatal care and optometry. This facility was made possible thanks to the generosity of our donors, contributing \$500,000 toward the project in 2021.
